REPORT OF FIRE DEPARTMENT

The Department records show a fire loss for 1937 of \$3,100.00.

The Sheridan farm a total loss.

John Stevens and Horace Winslow place \$1,600.00 damage.

We recommend that a new truck be purchased this year, as the one we have is fourteen years old, and the load it carries it will not pass many more inspections.

We are asking for a sum not to exceed \$3,000.00 to be paid for within three years, and the department will contribute towards paying for same.

We express our thanks and appreciation at this time for the loyal support given us.

GEORGE B. STEVENS,

Chief

FOREST FIRE WARDENS REPORT

In submitting my annual report as part of the permanent records, I wish to express thanks and appreciation to the citizens and visitors that have in any way through their support and cooperation helped to make our duties lighter and more efficient, during the year of 1937.

As the ponds, lakes and forest lands of Kingston continue to be the vacation centers of more tourists, there is greater need for more public education on forest fire prevention and suppression.

To help check this yearly loss a public appeal is made to everyone to observe, and put into practise a few simple forest fire protection rules as requested by the New Hampshire Forestry Department; that it is unlawful to kindle or cause to be kindled any fire in or near woodlands, pasture, brush, sprout, waste or cut-over land, except when the ground is covered with snow, without first obtaining written permission from the forest fire warden.

SYNOPSIS OF FOREST FIRE PERMIT LAW

No person shall kindle a fire upon the land of another without permission from the owner, agent or caretaker thereof.

No person shall kindle a fire or burn any material in or near woodlands, pasture, brush, sprout, waste or cut-over lands, except when the ground is covered with

snow, without the written permission of the Forest Fire Warden or the presence of the warden or person designated to superintend such burning.

Any person, firm or corporation causing or kindling a fire without a permit, when a permit is required, and also any person, by whose negligence or the negligence of his agents any fire shall be caused, is liable to the town for all expenses incurred in attending or extinguishing such fire.

Penalty for kindling a fire without a permit, \$200, or imprisonment not more than thirty days.

Penalty for kindling a fire wilfully, or in a careless or imprudent manner, \$500, or imprisonment not more than one year.

Because of availability of State Employees to assist in extinguishing many brush fires, much expense has been avoided. Wet weather over week-ends has been a big asset during this season.

Number of permits issued for fires.....193
 Number of fires reported and investigated..... 71
 Number of acres burned12 to 15

Expenses

Ralston grass fire	\$2.50
Ormes grass fire	4.30
Frye Place brush fire	7.60
New Boston Road, grass and brush fire.....	2.00
Sally Bartlett Cross Road, brush fire.....	No charge
New Boston Road, side fire	No charge
Country Pond Island	No charge

Let us all remember that a match has a head, but
cannot think: DO NOT LET IT GO OUT ALONE.

Respectfully submitted,

ARTHUR P. TUCKER,

Warden Kingston Dist.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Kingston:

I herewith present my eleventh annual report as Superintendent of Schools.

Instruction

As you well know, the same capable force of teachers remains. For a number of years, retention of satisfactory teachers has been the vogue. I must point out again that this means a great deal to me in drawing power to attract worthy candidates to such vacancies as may from time to time exist. It gives indication to the desirable candidate that the new teacher is to meet a community, which is cooperative, as well as appreciative in the matter of salary and working conditions. To desire a position in Kingston speaks well for the town and its schools. This desire has often been expressed to the writer. I do not for a minute believe that this comes from idle prattle or economic distress because I have heard it from those of better estate than such expressions suggest.

This topic of Instruction brings to mind the activities and progress of the children in school. Certain studies in promotions and reading abilities have been conducted. These concern the pupils in grades 2-7 inclusive of last year. As a whole, 89% received promotion to the next grade; 5 per cent. trial promotion, and 6 per cent. non-promotion.

In that important school subject of reading, it was

found that 1 per cent. of these children were far below their grade and some 7 per cent. more were experiencing some difficulty in one form or other. In the main the former group show very little comprehension while the latter have trouble to fully appreciate the material read.

Test scores do not closely correlate with teacher's reports to parents in these results. I am not selecting the teacher's reports as criteria, because they are more favorable, but, instead because they are obtained from constant testing week by week, while the test was given but once. If the teacher's records indicate 8 per cent. difficulty and the test scores 19 per cent., the accurate picture may be between those levels. Whether at one level or the other or in the middle, the fact remains that there is less trouble with reading than in the most of the other towns of this Union. We must aim at and strive to achieve a literate America. Therefore, this discussion points the way, furthers our intent to make our pupils read and fires our ambition to contribute toward this objective. I do not wish to convey that these pupils do not read at all, but rather that they do not read as well as they should in their grade. We have only a slight problem, yet we give it attention as important enough to consider for improvement or maintenance at a low level.

Perfect Attendance

I am pleased to list the following pupils as perfect in attendance during 1936-37 and to include the parent's name as well:

Pupil	Parent
Shirley Brown	John Brown
Doris Foster	Frank Foster
Frances Swallows	Leslie Swallows
Wesley West	Henry West

Conclusions

I commend the School Board for its attitude toward the proper upkeep and improvement of the property. A rather regular plan of painting, changing equipment, and repairing has been adopted with the result that the buildings present a more attractive appearance at all times and no major item of expense occurs in any one tax year as the case would be if the work was left until all the rooms needed attention. To spread the cost over four or five years seems a wise policy to me.

In closing, I express my appreciation to the teachers for their conscientious efforts during the past year and

to the School Board for their active interest in the work of the schools and to my suggestions for improvement.

Please read the Health Report which follows.

Very respectfully,

HAROLD G. BOWLEY
